

Kazan Golovkinsky Stratigraphic Meeting 2024

Eighth All-Russian Conference “Upper Palaeozoic of Russia”

Modern Stratigraphy: methods and applications,

devoted to the 190th anniversary of the Nikolai A. Golovkinsky birth

October 28-30, 2024

Kazan, Russia

The sedimentary basins of the past are represented by a very broad range of facies. The evolution of these facies reflects major geographical, climatic, and biospheric changes. Professor Nikolai A. Golovkinsky (1834–1897), a founder of the Kazan geological school and the author of fundamental studies on the geology and stratigraphy of Eastern Europe, was one of the first geologists to recognize the empirical rules of sedimentary succession and the lateral diachroneity of facies in sedimentary basins (Golovkinsky-Walther’s Law), which was a basis for the modern concept of sequence stratigraphy.

ORGANIZING COMMITTEE

Chairman of the Organizing Committee

Professor **Danis K. Nurgaliev**

Vice-Rector for Earth Sciences of the Kazan

Federal University

Danis.Nourgaliev@kpfu.ru

Vice-Chairman of the Organizing Committee

Dr. Sci. **Vladimir V. Silantiev**

Kazan Federal University

Vladimir.Silantiev@kpfu.ru

Secretary

Milyausha N. Urazaeva

Kazan Federal University, urazaeva.m.n@mail.ru

SESSION TITLES

1. Stratigraphy, Palaeontology: fundamental and applied aspects
2. Geochemistry
3. Palaeoclimate, Palaeogeography
4. Mineralogy, Lithology, Geophysical methods, Minerals
5. Sedimentary Basins, hydrocarbon potential
6. Upper Palaeozoic of Russia

MEETING FORMAT

The Meeting will consist of mixed physical and online modes.

Plenary lectures are limited to 20 minutes; regular talks are limited to 10 minutes (+ 5 minutes for questions and discussion). The poster session will run throughout the conference. Speakers will be limited to two presentations (talks) at the meeting.

LANGUAGE: The official languages for the scientific program are Russian and English. Abstracts will be accepted **in English**. Oral presentations may be in English or in Russian with a presentation in English.

The abstracts of Session "Upper Palaeozoic of Russia" will be accepted **in Russian**. Oral presentations may be in English or in Russian with a presentation in English.

CALL FOR ABSTRACTS

Abstracts of oral and poster presentations are invited. Please indicate your preference when submitting (oral physical, poster physical, oral online, poster online). All submissions will be peer-reviewed and published in an Abstract Volume. Please submit abstracts by e-mail (attached file in .doc, .docx or .rtf format) to: golovkinsky2024@kpfu.ru

Deadline for abstract submission is September 15, 2024

Please check the abstract template and example on the conference website: <https://geo.kpfu.ru/golovkinsky2024en/#abstracts>

CALL FOR ARTICLES SUBMISSION

The best Articles will be published in the journal "Georesursy", which is indexed in international databases.

Please check the submission template and example on the website: <https://geo.kpfu.ru/golovkinsky2024en/#submission>

If the manuscript does not meet the format requirements, the Editorial Board reserves the right to return it to the authors without review.

SCHEDULE FOR MEETING

October 28, 2024: Opening Ceremony, Scientific Sessions

October 29, 2024: Scientific Sessions

October 30, 2024: Scientific Sessions

REGISTRATION

Registration form is available on the website: <https://geo.kpfu.ru/golovkinsky2024en/#registration>

Registration Deadline: September 15, 2024.

REGISTRATION FEES:

500 Rubles, includes the meeting fee and refreshments during session breaks

IMPORTANT DATES

June 20, 2024: First Circular available for distribution through mail and online.

August 01, 2024: **Second Circular available for distribution through mail and online.**

September 15, 2024: **Deadline for registration and abstract submission**

October 15, 2024: Third Circular with the final Program of the Meeting available for distribution through mail and online.
