Dear colleagues,

We are pleased to invite you to the 36<sup>th</sup> International Meeting of Sedimentology (36<sup>th</sup> IMS) to be held in Dubrovnik, Croatia, **12<sup>th</sup> – 16<sup>th</sup> of June 2023**. The 36<sup>th</sup> IMS is supported by the International Association of Sedimentologists. **The city of Dubrovnik**, with its amazing Old Town and Walls of Dubrovnik, is one of the UNESCO World Heritage Sites due to its outstanding medieval architecture and rich history. The city lies on the rocky coast above the crystal-clear waters of the Adriatic Sea, offering an inspirational environment for researchers to share and discuss their ideas. The city's geographical position is ideal for geological exploration of the wider region, making it the logical choice for the 36th IMS. We are most honoured to continue a tradition that started in 1983 with the 4<sup>th</sup> IAS Regional Meeting held in Split, Croatia, and the 22<sup>nd</sup> IAS Meeting of Sedimentology held in 2003 in Opatija, Croatia. Let's continue this tradition together!

**We are looking forward to seeing you in Dubrovnik!**

**Your Organizing Committee.**
